

Rowe - New \$5.00 bills with CBA-2, UCBA-2 or OBA.

If it accepts this bill

It will accept the newest version without any updates !

Rowe is telling us there will NO new updates for the CBA-2, UCBA-2 and OBA 2 control units but they don't tell us is updates are "NOT NEEDED" to accept the newest \$5.00 bills if you have already updated the units for the previous version of \$5.00 bill.

Rowe has a way of having their equipment lasting for decades and they have done it again . The current updated CBA-2, UCBA-2 and OBA single board 610389-## [1x5x6 1/2] used in Juke CD100A, CD51, OBA 4900 Snack and Dual board 450575 -01 to -12 [Not -06] [2 1/2"x7x 7 1/2] used in BC-1, Games, Cranes, etc will all except the just released \$5.00 bill iif you have done the previous updates. The new \$5 update is free and no down time is required.

My acceptors were in good shape being clean and Magic Wand lubricated.

Offical OBA2, CBA-2 UBA-2 Upgrades for new \$5 bill before 3/13/2008

Rowe did not know the kits also accept the newest \$5 bill released after 3/13/2008 and does not officially said they work with the latest \$5 bill.

Make sure the control unit is working before starting the mod. Requires unsoldering 40 pin micro IC and soldering in new mother board IC.

Kit 27065101 Single Board Rowe link 610389-## CD100A, CD51, Snack OBA 4900

Kit 27065102 Double Board 450575-01, -05

Kit 27065104 Double Board 450575-02, -03, -12 -03 and -12 used in BC-1 bill changer.

CBA2 and UBA2 Module updates for new version units.

New version units have a plastic cover and the 8 position dip switch on the bottom of the module [not inside].

65100301 CBA-2 NV \$5 update module

65100302 UBA-2 NV \$5 update module

Rowe does have conversion CBA2 and UBA2 kits for old style where the 8 positon dip swtich is inside the acceptor.

It has a new lower cell assembly and the cable extenters for motor, mag head and stacker cables + the new module.

Old version CBA-2 update kit 27039804

Old version UBA-2 update kit 27039805
